Angelika Nallino

Personal Information

Nationality: Danish
Age: 36 years

Profile

I keep focus and I am dedicated to getting my point across in a proper and comprehensible manner. I prefer to base my statements on facts rather than feelings and I like diversity in my daily work.

I hold a personal membership to an exclusive PMO network frequented by PMO directors and Project Managers representing 20 of the largest companies in DK

I am comfortable in, and welcome different cultures. I live by the mantra "enter village, follow customs", which I practiced while living in Venezuela and on my business trips to China, Mexico and the US.

I am a daily user of basic MS Office products, MS Project Server, SharePoint, Visio, Publisher and FrontPage. I have also worked intensively resource management, time registration and task management systems.

Career Goals

Despite an Engineering Degree and a genuine interest for IT I have chosen to pursue a career path within project- and portfolio management, optimization of the appertaining processes and the overall improvement of project excellence within the company.

I will appreciate:

- A workday with responsibilities and challenges in a dynamic company where it is expected that I possess a natural drive and a wish to getting things done right.
- The possibility to continuously develop professional and personal competencies as ongoing development and challenges are important factors to me.

**Work
Experience**

Education**2008 PRINCE2 PRACTITIONER**

Certified PR2 Practitioner by Spoce.dk

2006 PMI, CAPM

Certified Associate Project Manager from Project Management Institute

2003-2004 Ingeniørhøjskolen København and NNE A/S

Final Project at NNE A/S. Mainly about pricing strategies and implementation of IT systems related to the development and release of a new ground-breaking NNE product.

The project was presented on June 18.th 2004 and was given the grade 11.

1993-2004 Export Engineer, Engineering College of CPH

A wide education that, besides the technical courses math, physics, chemistry, includes business- and managerial economics, sales and marketing and various cross-curricular projects.

The education is based on English as primary language and in my case Italian and Spanish as second language.

Languages

My native tongue is Danish. I also speak English, Italian and Spanish and find it easy to converse with Swedes and Norwegians.

Other

I spend my spare time horseback riding and I am elected treasurer of my riding club, before this I spent a few nights a week teaching salsa.

Being half Italian I have inherited the Italian temper and have a passion for speed, motorcycles and beautiful cars.
